Subject: Response to Citizen Comments, Geneva Rock Products, Point of the Mountain (South Hansen), M/035/0026, Salt Lake County, Utah

Dear Mr. Rickabaugh:

In your electronic mail message sent March 8, 2016, addressed to Paul Baker, you asked the following three questions:

1. Can you tell me which Subject Area the reclamation order refers to?
2. Will the same reclamation directive be extended to the Sage Canyon Excavation?
3. Does the Division plan on granting another extension?

The Division of Oil, Gas and Mining responds as follows:

1. The "Subject Area" is the area which the City of Draper requested be restored. It is dominantly west northwest of the old radio tower.
2. No, as all areas of Sage Canyon are fully bonded.
3. The operator is continuing to negotiate with Draper City and on this basis has requested and received a further extension for reclaiming the area, submitting a reclamation cost estimate, and responding to the Division's deficiencies concerning a map received January 12, 2016.

I hope these responses adequately address your questions and concerns, as the Division is able to do so within the scope of its authority. Please contact the Leslie Heppler at 801-538-5257 or me at 801-538-5261 with further questions.

Sincerely,

Paul Baker
Minerals Program Manager
